LexCall 3-1-1

LexCall 3-1-1 is the Lexington-Fayette Urban County Government's Centralized service and information contact center. LexCall was initiated in 1997 to make it easier for citizens to access their local government. In October 2006 LexCall 3-1-1 was started as your one call for City Hall.

When you call LexCall 3-1-1 during office hours (Mon-Fri, 7AM - 8PM) you will speak with a friendly person who will help you... not a recording. And now there is an easy-to-use website: lexcall.lfucg.com that will help you retrieve information, request a service, or report a problem.

Fence Construction

All homeowners must have approval from the Homeowners Association before beginning construction on a fence. Please allow 10-14 days for approval. Contact: Edwin M. Gibson at 859-263-7681 or manager@emgms.com.

SOME GOOD NEIGHBOR TIPS

Anytime lots of people live in close proximity to each other there are going to be issues related to neighbors. We ask everyone to remember it is important for us all to observe some common sense rules.

1. Keep your lawn mowed
2. Control barking dogs
3. Park in front of your own house
4. Having a party, let your neighbors know
5. Remove dead trees and shrubs from your yard
6. Turn your music down
7. Clean up after your pets
8. Take your garbage out
9. Slow down - Don't drive too fast - lots of children playing in the neighborhood
10. Fix your Fence if it needs repairing

Volunteers Welcomed!

We are looking for Volunteers to help out with various projects. If you are interested in becoming a volunteer, please let us know. You can contact Michelle Cammack at: mcammack@insightbb.com
We look forward to working with you.

SIDEWALKS

A reminder to homeowners, you are responsible for the maintenance of the public sidewalks adjacent to your property.

According to the Lexington Code of Ordinances, replacement of the sidewalk is needed if:

- Vertical displacement is greater than one inch.
- Sidewalk is raised and has a slope of greater than one inch.
- Panels have cracked or broken material so that pieces of the sidewalk are missing or loose.
- A safety issue exists which is not defined by the previous criteria but which the inspector considers significant.

Repair of the sidewalk is needed if:

- Cracks with 1/8 inch or greater horizontal displacement.
- Vertical displacement less than or equal to one inch.
- Pop outs of holes.
- Panels have cracked or broken material, but where no pieces of the sidewalk are missing or loose.

Please Note: for residential homeowners only, grant money may be available to assist with making the needed repairs of sidewalks.

If you feel a sidewalk needs to be inspected, you may call LexCall (by dialing 311 or 425-CALL) and request an inspection of the sidewalk. If the Division of Code Enforcement marks the residential sidewalk for repairs, the owner occupant may be entitled to financial assistance. Funds are depleted rapidly, so reimbursement is given on a "first completed - first served" basis.
