Introduction-----

We all have different expectations of our neighbors. For some of us, a good neighbor is one who takes time for chats across the fence, or who helps with the chores when a neighbor is ill. For others, a good neighbor is one who leaves us alone.

Although we don't agree on all of the fine points of neighborliness, we do tend to agree on certain basic standards that allow residents to enjoy their homes and property, preserve peace and quiet in our neighborhoods, help maintain property values and prevent disputes among neighbors.

The people of Lexington have enacted these standards into law. Some of the "good neighbor ordinances" are described in this booklet, with references to relevant sections of the Code of Ordinances [in brackets].

Remember, when you follow these simple rules, you are not only obeying the law — you're being a good neighbor!

Garbage, Yard Waste & Recycling-----

Eligibility: Residents living in certain tax districts are eligible for Urban County Government (UCG) waste collection services. Residents living in other areas must hire private waste haulers to have these services performed or request UCG garbage service through the Urban Services process. To find out if you are eligible for UCG Herbie (garbage),

Lenny (yard waste), and Rosie (recycling) services, please call *LexCall* at 425-2255.

The following information applies to citizens who have UCG service:

Garbage & Trash: Herbie garbage containers may be filled to

capacity as long as the lid can be closed and latched and as long as the weight doesn't exceed 200 pounds. No engine blocks or other excessively heavy items and no paints, solvents, flammables or liquids of any kind may be placed in the Herbie [Section 16-8]. Construction materials, such as bricks, concrete, drywall and roofing materials, *cannot* be put in the Herbie or left out as a special pick-up. Instead, these items should be taken to the UCG Construction Demolition Landfill on Hedger Lane, off Haley Pike. The phone number for the construction landfill is 299-5715.

For garbage collection, all items must be prepared so they can be readily handled by one Solid Waste worker. Bulky items, such as cardboard containers or similar refuse, must be tied in bundles or packed in containers no larger than three feet by four feet. Furniture and other large bulky items are picked up on the *second* collection day each week.

Herbies should be rolled to the curb no earlier than 5 p.m. (Oct. 15 - April 15) and 7 p.m. (April 16 - Oct. 14) on the evening before scheduled collection or no later than 5 a.m. on collection days. They must be removed from the curb by 7 p.m. on collection days [Section 16-10]. Herbies are emptied twice a week. Residents may be required to replace any Herbie that is stolen or vandalized if the UCG determines that the resident was negligent in the care of the container [Section 16-8].

Recycling: Residents served by UCG garbage collection are encouraged to participate in the Rosie recycling program as well. The Rosie roll cart looks like a smaller, blue version of the Herbie container. The Rosie is divided into separate compartments that are used for the different materials that can be recycled. Specific instructions and collection schedules are provided to residents when the Rosie is delivered. There is no additional charge for this service. (Plans are under way for future commingling of recyclables.)

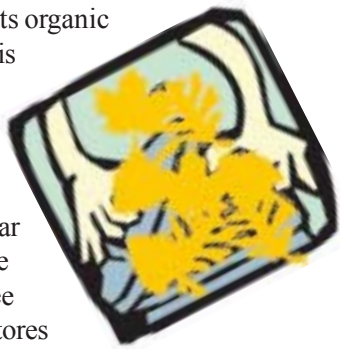

To obtain a copy of the recycling guide that explains how to separate recyclables for the Rosie recycler or to order a Rosie, call 425-2255.

Recycling collection is provided once a week. Rosies should be rolled to the curb no earlier than 5 p.m. (Oct. 15 - April 15) and 7 p.m. (April 16 - Oct. 14) the evening before the scheduled collection day or no later than 5 a.m. on collection days. They must be removed from the curb by 7 p.m. [Section 16-10].

Motor oil can be recycled through the PETRO program by calling 258-3784.

Yard Waste: The UCG collects organic yard waste from households when it is separated from regular garbage and recyclables. Residents are provided with three options for storing yard waste including a free 95-gallon gray cart known as Lenny that looks similar to a Herbie or 30 gallon compostable paper bags that can be picked up free from most local grocers, hardware stores and discount stores by using UCG issued coupons. Both the cart and the coupons for the paper bags can be obtained by calling 425-2255. Residents can also use their own personal containers marked “yard waste only.”

You may place tree limbs up to six inches in diameter, leaves, and garden debris including pumpkins in your Lenny. Lenny should be rolled to the curb no earlier than 5 p.m. (Oct. 15 - April 15) and 7 p.m. (April 16 - Oct. 14) on the evening before your scheduled collection day or no later than 5 a.m. It must be removed by 5 p.m. on collection days [Section 16-10].

Brush too big to fit into Lenny must be cut in lengths no longer than four feet and tied into bundles [Section 16-9]. It will be collected on your yard waste collection day.

Leaf Collection: Residents who receive UCG garbage collection services receive one vacuum leaf collection each season. Signs are posted and parking is restricted on the affected streets while leaf collection is in progress, usually from late October to mid-January. Collections are based on the amount of fallen leaves and the weather. Citizens who receive this service must rake their leaves to the curb, between the sidewalk and the street, for collection.

Leaves should NEVER be placed on the street or be allowed to accumulate in gutters or storm drains. Citizens also have the option of using yard waste bags or Lenny for leaf collection. 

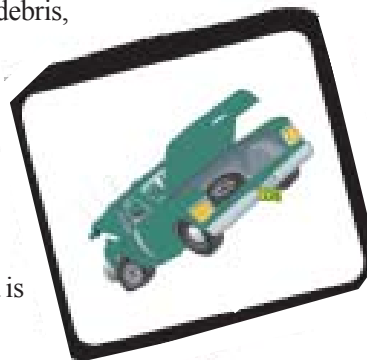

Christmas Tree Recycling: The UCG collects and recycles Christmas trees throughout Fayette County. Specific dates vary from year to year and are announced in the news media and on Government Television Channel 3. Trees must be stripped of stands, lights, tinsel and ornaments and left on the curb the evening before the scheduled pickup days. The trees are eventually ground into mulch, which is made available to citizens, FREE of charge, while supplies last. For information, call LexCall at 425-2255.

Appliances: Large appliances and tires will be picked up for recycling only when you arrange a special pick-up by calling 425-2255. Residents are limited to four tires off the rim.

Nuisances-----

Nuisances are prohibited under the Code of Ordinances and are generally defined in Chapter 12. They include, but are not necessarily limited to the appearance of any of the following conditions on a property:

- ✓ weeds or grass taller than 12 inches;
- ✓ trash, garbage, building debris, refuse, or waste of any kind;
- ✓ any readily visible wrecked, junked, partially dismantled or otherwise non-operating motor vehicle, or any motor vehicle not properly licensed if it has remained on the property longer than 10 days and is readily visible from surrounding property;
- ✓ water which is directed or discharged across a public sidewalk, and which forms ice on the sidewalk; and
- ✓ furniture, equipment, or appliances that are upholstered, or not designed for outdoor use, that is used or stored outdoors.

5

The Division of Code Enforcement normally enforces nuisance violations. A civil penalty lien may be filed against the property under certain circumstances or a criminal citation may be issued for up to \$500 per violation. In addition, after providing notice and an opportunity to correct the violation, the UCG may elect to abate the costs and expenses incurred. An administrative appeals process has been established which allows property owners to appeal notices of violations and civil penalties. Info: Code Enforcement, 258-3270.

Noise: Certain noise disturbances are prohibited and should be reported to the Division of Police for enforcement. Noise disturbances are defined as sounds that endangers or injures persons or property or which annoy or disturb a reasonable person of normal sensitivities. Specifically prohibited noise disturbances include,

but are not limited to the following activities, if the noise disturbance also crosses the boundary of a dwelling unit:

- ✓ operating tools or equipment including lawn mowers, between 11 p.m. and 7 a.m. any day and between 11 p.m. and 9 a.m. on Saturday and Sunday;
- ✓ loudspeakers, public address systems, powered model vehicles, miscellaneous noises (loading or handling boxes, crates, building materials, etc.) between 11 p.m. and 7 a.m.;
- ✓ music by radio, television, musical instrument or similar device;
- ✓ repairing, testing or operating a motor vehicle, motorcycle, motorbike or motorboat; and
- ✓ barking dogs, anytime, or any animal that creates a noise disturbance [Sections 14-70-80].

In addition, noise disturbances across public ways or in public places are generally prohibited including playing of a motor vehicles stereo or similar device in such a manner that a noise disturbance is created at least 50 feet away. Info: Division of Police, 258-3600. 

Pets-----

Barking Dogs: It is unlawful to have a dog whose barking or yelping creates a noise disturbance across the boundaries of your residence. Violators may be charged under the noise ordinance [Section 14-72] and fined \$25 to \$500. Violations of this ordinance are handled by the Division of Police, 258-3600.

Dog Litter: Owners should not allow dogs to deposit droppings in public places or on the property of others [Section 4-23.1]. When you walk your dog, make sure you take something with you to clean up after it. Make sure to clean up your dog's droppings in your own yard, too, so they don't accumulate and create a health hazard [Sections 4-23.2 and 11-6]. Be sure to double bag droppings or put them in a container before placing them in the Herbie [Section 16-8] and never dispose of dog litter in a creek or storm sewer.

Leash Law: Dogs must be confined behind a fence or otherwise securely restrained while on the owner's property. A dog may be kept unleashed and unconfined on the owner's property only if the owner is present with the animal and the dog is under the owner's direct control and supervision. Violators of this Ordinance [Section 4-19] can be fined \$10 to \$50 for each offense.

[Section 4-21] of the Code of Ordinances authorizes animal control officers to impound dogs running at large. Dogs may run off the leash only in *certain marked areas* of Masterson Station and

7 Jacobson parks. It's always a good idea to leash or otherwise restrain dogs when maintenance or utility workers are expected on your property.

Vaccinations and Licenses: State law requires that all dogs be licensed and vaccinated for rabies. Lexington's Code of Ordinances also requires that cats be licensed [Section 4-12.3] and the regulations of the Fayette County Health Department require cats to be vaccinated for rabies.

In Lexington-Fayette County, dog and cat licenses cost \$5 and are available from the Lexington Humane Society or from participating local veterinarians. Dogs are also required to have a license from the state that costs \$1.50.

Vicious Dogs: It is unlawful [Section 4-14] to keep a vicious dog unless it is securely confined indoors or in a locked outdoor pen suitable to prevent the entry of young children. The pen must have minimum dimensions of 5x10 feet and have secure sides and a secure top. If the floor is not concrete or asphalt, the sides must be imbedded in the ground at least two feet. The pen must also provide protection to the dog from the elements.

A vicious dog must wear a vicious dog collar issued by the Lexington Humane Society at all times. It is unlawful for anyone to remove this collar and a vicious dog may only leave the owner's property if it is muzzled and on a secure leash. Children under the age of 18 are not permitted to handle, walk or own vicious dogs. A notice must be posted on the property where a vicious dog is kept, warning the public about the dog.

Vicious dogs are defined to include: [1] any dog with a propensity, tendency or disposition to attack, cause injury to, or otherwise endanger the safety of people or domestic

animals; [2] any dog that chases or approaches a person upon the sidewalks, streets or other public places in a menacing fashion or with an apparent attitude of attack; [3] any dog trained or kept for fighting purposes; and [4] any dog that attacks a person or domestic animal without provocation.

Violators of the vicious dog ordinance can be fined \$200 to \$500 and, if the dog actually inflicts serious injury on a person or domestic animal, the dog may be destroyed [Section 4-14]. Violations should be reported to the Animal Control Officer at the Lexington Humane Society at 233-0044.

Dangerous Wildlife: The Code of Ordinances states that the keeping or holding of wildlife within Lexington-Fayette County that have been identified by the Kentucky Department of Fish and Wildlife as inherently dangerous to human health and safety is prohibited [Section 4 -11.1a].

A dangerous animal is defined by the Kentucky Department of Fish and Wildlife, as any species of animal capable of inflicting serious physical harm or death to humans because of its nature or physical makeup, including any wildlife or hybrid animal which has attacked a human or which is apprehended or observed unrestrained.

Violations of this ordinance shall be subject to a fine of \$200 to \$500 in addition to the reasonable costs in seizing, impounding and confining the wild animal. Each day the violation occurs is considered a separate offense.

A wild animal is defined as any species of animal not normally domesticated by man, including but not limited to all bears, lions, tigers, cougars, leopards, wolves and wolverines.

Entities such as zoos, licensed theatrical exhibits, carnivals or circuses, veterinary hospitals, federally licensed research institutions, or authorized wildlife rehabilitators are exempt from this ordinance. To report a violation of the Dangerous Wildlife Ordinance [Section 4-11.1], call the Division of Police at 258-3600.

Building Permits: A permit from the Division of Building Inspection is required before a structure may be built, moved, added to or structurally altered. A permit is also needed for installation of a swimming pool, construction of a driveway or fence, or major remodeling of a home.

Before issuing a permit, the Division of Building Inspection will review the plans to make sure they conform to the zoning ordinance and building code. A call to the division (258-3770) is advisable, to find out if you need a permit, *before* you begin any home improvement project.

Underground utilities should always be located before any digging is done. By calling Kentucky Underground Protection at 1-800-752-6007, notification will be given to AT&T, Columbia Gas, Verizon, Insight Communications and Sanitary Sewers. You will need to call Kentucky Utilities (278-9355) and Kentucky American Water Company (268-6363) as well.

Demolition Permits: A permit from the Division of Building Inspection is required before any structure may be wrecked, shored, razed or moved [Article 2 Chapter 5]. Call 258-3770 for information.

Loan-A-Box Program: If you need help with a big clean-up job, the Division of Solid Waste can help. The division's Loan-A-Box program offers neighborhoods or individuals the use of a 10-cubic-yard metal roll off box for home or yard debris. The cost is only \$38, which covers the delivery and removal of the truck and the disposal of its contents. Call 425-2255 for details.

Property Maintenance: All property must be maintained to ensure that it is safe and habitable and not detrimental to the property of others or the property values of the neighborhood. The UCG

has adopted the International Code Council, Inc., International Property Maintenance Code, which contains detailed property maintenance requirements. This Code is enforced by the Division of Code Enforcement [Section 12-1], which can be contacted by calling 258-3270.

Street Trees: are located within a public right-of-way, such as the strip between the sidewalk and curb. A FREE permit must be obtained from the UCG's Urban Forester before a street tree may

be planted and before any street tree larger than three inches in diameter may be removed [Section 17B-2 & 17B-3].

The property owner or occupant is responsible for maintaining street trees and may not allow them to interfere with the sidewalk or obstruct the view or passage on the sidewalk or street [Section 17B-8]. There

should be a 12 to 14-foot clearance under trees hanging over a street and sidewalks require a 7-foot clearance.

Street trees that are removed by the property owner because of damage or disease must be replaced and fallen trees must be removed by the property owner. The Division of Streets & Roads (425-2255) may remove fallen trees *only for emergency public access*.

For more information or a brochure on street trees, call the Urban Forester at 258-3286.

Creeks & Detention Basins: Property owners are responsible for maintaining the ditches, creeks and detention/retention basins on their property. Refer to your record plat and deed for details on these requirements. For information about maintenance, call the Division of Engineering at 258-3410.

House Numbering: The UCG has a very specific ordinance for numbering property, buildings and fire gates [Section 17-2]. Having your property marked properly could save your life in case of a police or fire emergency, and it certainly makes it easier for

delivery people to find you.

The Division of Code Enforcement has the authority [Section 14-10] to cite property owners who do not comply with this ordinance. For specifics about the house numbering ordinance, call the GIS/Mapping office at 258-3386.

Downspouts and Sump Pumps: Water from downspouts and sump pumps should be discharged so that it does not cause an ice hazard on streets or sidewalks or a flooding problem for neighboring properties. No storm water, roof run-off, subsurface drainage or sump pump should ever be connected to the sanitary sewer system in Fayette County [Section 16-42]. A “Sump Pump Redirection Program” began in 1998 in an effort to remove ground water that was being pumped into the sanitary sewer and redirecting that water to an alternate location.

The program is voluntary and UCG will pay 100% of the cost up to \$2,500. For information about the sump pump redirection program, call the Division of Engineering at 258-3410.

Yard Sales: A permit is not required to have a yard sale but residents may have no more than two yard sales per year, each lasting no more than three consecutive days. Only one yard sale sign may be posted in the yard, and it must be removed immediately after the sale. No signs are allowed on the public right-of-way. For additional information about yard sales, please call the Division of Building Inspection at 258-3770.

Neighborhood Action Match Grant (NAMG) Program: This program was established by the UCG to support eligible neighborhood associations in carrying out identified neighborhood

development activities using cooperative efforts and voluntary contributions of neighborhood residents, businesses, schools and others. The NAMG program is designed as an incentive for neighborhood associations to select and plan neighborhood development activities, secure and organize the resources necessary to carry out the activities and manage the implementation of those activities. Approximately \$100,000 is available annually for this program. For additional information, please call 258-3070.

Neighborhood Associations: A list of neighborhood associations, current at the time this booklet was published, can be found on the inside back cover of this booklet. Consult the list, or check with your neighbors or the Division of Planning (258-3160) to see if a neighborhood association exists in your area. If it does, please consider joining it—you'll meet more of your neighbors and it will enhance your participation and influence in your neighborhood and community. If there is no association in your neighborhood, the Division of Planning can provide information about forming one.

Neighborhood Watch: Through the Neighborhood Watch program, residents in a neighborhood can work together to prevent residential burglaries and other crimes. The Community Services section of the Division of Police (258-3636) will help you set up a Neighborhood Watch program.

Call 911 When Time Counts: In Lexington-Fayette County, 911 is an emergency telephone number that should only be used for life and property threatening situations. Dialing 911 will put you directly in touch with police, fire and ambulance services. **Non-emergency** calls to the Division of Police should be made to 258-3600. The non-emergency number for the Division of Fire & Emergency Services is 254-1120.

Zone Changes: Residents are given an opportunity to comment when a zone change or a zoning appeal is requested in or near their neighborhood. The Planning Commission holds a public hearing and then makes a recommendation on all zone change requests to the Urban County Council. The Council does not have to hold a second public hearing, but often does if applicants or opponents request one. The Board of Adjustment holds a public hearing every month to consider requests for conditional use

13 permits, zoning variances, and administrative appeals. Owners of property within 400 feet of the property in question (or within 200 feet for zoning variances) and neighborhood associations are notified by mail about these public hearings. For issues relating to historic preservation and neighborhoods, call Historic Preservation 258-3265.

Commercial Activities: As a general rule, no commercial activities are allowed in any residential zone in Fayette County. Home offices and some home occupations are allowed in residential zones if a conditional use permit is authorized by the Board of Adjustment. The Divisions of Building Inspection (258-3770) and Planning (258-3160) can provide information about how to start this process.

Contractors: who perform construction-related activities are generally required to register annually with the UCG and comply with certain other consumer protection regulations. Speciality contractors, including but not limited to electricians and plumbers, must also register if they perform work at the direction or request of the property owner instead of a general contractor. To find out if the contractor you are considering is properly registered, call the Division of Building Inspection at 258-3770.

Parking-----

Blocking Driveways: Parking in front of a public or private driveway is prohibited [Section 18-119]. Violations of this ordinance are handled by the Division of Police, 258-3600.

Fines: Parking fines must be paid to the UCG's Division of Revenue. Parking fines can now be paid with a credit card over the phone or in person by coming to the second floor of the Government Center,

200 East Main Street. You can also mail your payment to *PO BOX 14058, Lexington, KY 40512*. Revenue is open from 8 a.m. to 6 p.m. Monday through Friday.

Depending on the parking violation, certain fines may be doubled if not paid within the time specified. A 2% handling charge is added to each parking citation paid by credit card. If you have questions about your parking fines, call Revenue at 258-3369 or 258-3378.

Large Vehicles: Large vehicles may not be parked on residential streets for longer than two hours except when loading or unloading. Additionally, such vehicles may not park in front yards (except in driveways) and may not block sidewalks.

Limited exceptions exist for recreational vehicles [Section 18-129]. Parking a vehicle that is used for commercial purposes on a regular basis is generally prohibited in residential areas.

Parking on Sidewalks or in Yards: It is unlawful to park any vehicle on the sidewalk, utility strip or other area designated for pedestrian use. It is also unlawful to park in the front or side yard of a corner lot except on an approved residential driveway [Section 18-129].

Snow Emergency Routes: The UCG has designated and marked approximately 77 miles of roadway in Fayette County as Snow Emergency Routes.

These are roadways that have high traffic volume and/or shoulders that are inadequate to accommodate disabled vehicles. A disabled vehicle or car parked along one of these roadways could create traffic congestion and prohibit necessary snow plowing. Parking and travel are restricted along these routes when the city is under a Snow Emergency.

15

Twenty-four Hour Parking: Vehicles may not be parked on any street for more than 24 hours. The Division of Police will issue a 24-hour warning notice and the vehicle may be impounded if it is not moved within 24 hours after the notice is issued [Section 18-122].

Sidewalk & Safety-----

A sidewalk is a public right-of-way, but the owner or occupant of the adjoining property is responsible for maintaining it.

Road or Sidewalk Obstruction: It is unlawful to allow any tree, bush, other vegetation and items like basketball goals to obstruct the view of a street or passage on a sidewalk. Please follow the neighborly policy of not leaving objects on the sidewalk, and always direct lawn sprinkler spray away from the sidewalk. Property owners should also make sure trees are trimmed at least 12 to 14 feet above the street so street sweepers can get close enough to the curb to clean streets.

Sidewalk Repairs: The owner of the real estate abutting the sidewalk is responsible for replacing or repairing defective sections of the sidewalk [Article 4 Chapter 17]. If the owner or agent cannot be found, the caretaker or occupant is responsible for sidewalk repairs [Section 17-147]. If the sidewalk is not repaired a civil penalty lien may be assessed against the property owner. It is important that manholes not be covered when sidewalk repairs are made because access to the manholes is necessary for maintenance and repair work. The sidewalk inspection program is complaint responsive, meaning an inspection is done when a citizen files a complaint with the Division of Code Enforcement. The UCG has a sidewalk replacement grant program that provides financial assistance to residential property owners. Information about this program is available by calling the Division of Code Enforcement at 258-3270.

Snow & Ice Removal: When it snows, the owner or occupant (or caretaker) of the property abutting sidewalks is responsible for clearing them [Section 17-31]. All snow should be removed within four hours after daylight and after the snow has stopped falling. Ice must also be removed or covered with sand, salt or another suitable substance. Violators of this ordinance are subject to fines of \$5 to \$100 per day.

Getting to know Your Government-----

The Division of Public Information (258-3010/TDD 258-3606) provides information about the divisions, programs and services of the UCG to visitors, employees and callers.

Government Television 3: Public Information includes a Video Services section, which is responsible for Government Television Channel 3 (**GTV3**), the local government cable channel. Many UCG meetings, including those of the Council and Council Committees and the Planning and Greenspace Commissions, are cablecast LIVE on **GTV3**. All council meetings are

also replayed for later viewing.

Urban County Council work sessions are closed captioned. Amplified listening devices are available for people who attend any meeting in the Urban County Council Chamber. In addition, sign language interpreters will be provided for citizens who request them by calling 258-3251/TDD 258-3606 at least 24 hours before the meeting they wish to attend.

A program schedule is included in the Lexington Herald-Leader's Sunday "TV Book" and is also available from the Division of Public Information, on the first floor of the Government Center at 200 East Main Street.

17

When no meetings or special programs are being aired, the **GTV3** bulletin board provides information about UCG meetings, services, job openings and special events. Neighborhood Association meetings are also posted on the bulletin board. If you would like your neighborhood association meeting posted on GTV3 please call 258-3009.

Publications: This **Better Neighbor** booklet and many other informative publications are published by Public Information, including the **Citizens' Guide to Services** booklet, the **ReSource**, an environmental newsletter and **CityWorks**, a citizen's newsletter. To receive copies of these or other UCG publications, please call 258-3012 or stop by Public Information.

Speakers' Bureau: The UCG has organized a formalized Speakers' Bureau that can help you when you are looking for a speaker for your neighborhood association or other local organization. A wide range of topics, including the issues in this book, can be presented to your group. If you are interested in receiving a list of topics or to arrange a speaker for your group, call Public Information at 258-3009 or 258-3008.

Worldwide Web-----

The UCG's address on the worldwide web is <http://www.lfucg.com>. The site outlines the basic functions of the divisions of government and provides information on taxes, recreation & entertainment, Government Television Channel 3 program schedules, meeting schedules, a virtual tour of Lexington and much more. For up-to-date news releases and newsletters the UCG publishes, visit Public Information's web site at www.lfucg.com/pio. Stop by and see us!

Why call LexCall?
Fayette County citizens rely on LexCall to help in resolving a variety of situations. For example, if you need...

- ✓ To order a new Herbie, Rosie, or Lenny from the Division of Solid Waste or to have one repaired or replaced
- ✓ An appliance or tires picked up
- ✓ A dead animal picked up from the curb or street
- ✓ To report a sewer problem
- ✓ To report a pothole

Call LexCall at 425-2255 or visit their website at www.lfucg.com/Lexcall.htm to report problems or get answers about Urban County Government services.

Who should I call?
